### **DETAILED ACTION**

The claims 1-20 are pending in the instant office action.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-4, 7-12, 15-16, drawn to gram-positive bacterium having alcohol dehydrogenase (adh) activity transformed with pyruvate decarboxylase (pdc) gene, classified in class 435, subclass 252.3.

Group II. Claims 1, 5-6, 13-14, 17-20, drawn to gram-positive bacterium having alcohol dehydrogenase (adh) activity, transformed with pyruvate decarboxylase (pdc) gene which is further modulated by inactivation of with lactate dehydrogenase (ldh) gene, classified in class 435, subclass 252.3.

The inventions are distinct, each from the other because of the following reasons:

Inventions I- II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions: product of group I comprises adh active bacteria transformed with pdc gene whereas product of group II comprises adh active bacteria transformed with pdc gene and having an inactivated ldh gene. group II gram-

positive bacterium (transformed with pdc gene and having an inactivated ldh gene) has different function, properties and utilities than gram-positive bacterium (transformed with only pdc gene) of group I such as former bacterium will not produce any lactic acid whereas later one does.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
